## INTRODUCTION

Indian Air Force is proud of its human-resource base that has immensely contributed towards making it one of the most respected Air Forces in the world. However, the pyramidal structure of military organizations influences the trained human resource capital to seek avenues of resettlement on completion of their regular terms of engagement.

Every year a large number of Air Warriors leave service after a regular engagement of twenty years, at a relatively young age of about 38 to 42 years. Resettlement of Ex-IAF personnel (Air Veterans) into their second career has remained an area of focus for the Government. IAF has been taking all possible measures to make this transition seamless for our Air Warriors. To meet this challenge, Indian Air Force Placement Cell (IAFPC) was set up in the year 2007.

IAFPC is part of Directorate of Air Veterans, Air Headquarter, Subroto Park, New Delhi. It assists retired Air Veterans / soon to retire Air Warriors to find suitable jobs in the Civil/Corporate sector. It is the nodal agency which maintains HR database of retired Air Veterans. This database consists of a vast pool of young and highly trained personnel numbering approximately twenty thousand.

IAFPC operates its website [iafpc.co.in](http://iafpc.co.in). All placement processes such as projection of vacancies by companies, posting of vacancies, receipt of applications and sponsoring of eligible candidates to the companies is web based. **The services of IAFPC for all processes are free of cost.**

## CORE VALUES
